The Outdoor LEDs we choose have the high reliability and contrast, wide view angle and good consistency which meet the need of high brightness, high refresh rate, high gray scale and keep natural color at one time with best color uniformity.

1. High brightness
White lens, high luminous intensity
2. High contrast
Black coating, matte encapsulation with non-mirror reflection
3. High reliability
Dust-proof, Water-proof, UV-proof
4. Long lifespan
Good thermal dissipation, low luminous degradation and power consumption
